

FEEDING WILDLIFE:

It's hard to resist feeding the wildlife but please don't — for their health and your safety.

THEIR HEALTH

- The native animals who live here, including birds, squirrels, raccoons, and other wildlife, need nature's diet to be healthy.
- Human food is "junk food" for wildlife. Well-intentioned handouts may cause disease, injury, and even death for the animals.
- Providing unnatural food encourages wildlife to congregate in large numbers, leading to territorial fighting, attacks by predators, and being hit by cars.
- Animals you feed today may be killed as "pests" tomorrow. Don't harm wildlife with your kindness... help them remain healthy, safe, and free.

YOUR SAFETY

Native animals who eat human food:

- May bite, scratch or threaten other visitors.
- May come into conflict with your pets.
- May spread disease.

FED WILDLIFE IS DEAD WILDLIFE. IF YOU CARE, DON'T FEED!
